

## 160<sup>th</sup> Anniversary Garden Project

The plans for the refurbishment of the gardens have been presented to Parish Council and they have given their approval for the project to begin.

The project will start with the refurbishment of the garden in front of the Parish Hall, followed by the Talbot Street Garden and finally the garden at the north and west boundaries with Geelong College.

We now have the costings for plants and structural work. Some members of the parish have already indicated that they can contribute financially to the excavation cost, but we do require contributions towards the cost of the plants and a professional horticulturalist to oversee the planting.

Mulching will also be a cost, a little later.

There will be plans at the back of the hall so you can see that we have identified many of the same plant species that currently are growing at the front of the church. We really want the whole project to appear as a single concept to link the church and the parish hall gardens.

The community garden plant cost is \$1500 and the Talbot Street plant cost is \$1200. We would like to plant out the Parish Hall Garden on April 16<sup>th</sup> (just after Easter). We are asking at this stage for donations towards the plant cost and professional support for the Parish Hall Garden. We would prefer that people give an amount towards each garden rather than identify individual plants. The gift could be towards a group of plants for each garden prior to its commencement.

We hope this gives you a brief overview of the plans. You can communicate with the project coordinators through the following email address or via the church office who will pass on any information to us.

Donations can be lodged at the church office and direct payments made to  
All Saints General Account
